Abstract /Teesid

The Estonian Association of Foreign Language Teachers has received support for the preparation and implementation of the European Social Fund (ESF) project “An International Examination” for the period of 1 October 2017 until 30 September 2020. This is good news both for teacher students as well as qualified foreign language teachers. During the upcoming three years, at least 100 people - students acquiring the qualification of a foreign language teacher (as a major or a minor), and already qualified teachers of English, French, German and Russian - have the opportunity to take an internationally recognized language examination at the level B2, C1 or C2 and get reimbursed for the examination fee. The workshop will introduce the project, its aims and conditions, and discuss the contents of the international examinations of the said levels in the English language. The presentation will look at the similarities and differences between the exam requirements, task types, qualifications offered and certification.
